Stinking Fish Studio Tour ANNUAL GUIDE 2013

Since 2001 the Stinking Fish Studio Tour has been synonymous with the vibrant and prolific East Sooke/ Metchosin art scene. In 2013, this passionate group of diverse artists will present a new art lovers' event! Instead of the previous few yearly tour days, our working studios will be open for your convenience all year long!

This new ANNUAL GUIDE will lead you to the working studios of first class, peer-juried artists working in a variety of mediums. It includes more artists, some from previous years' tours. Whether you are a local or a visitor, a new-comer to the arts, or a longtime arts collector you are invited to see the work, get a taste of where and how it's made, and meet the artist. Bring friends for a personalized experience in the relaxed and easygoing environment of our island paradise.

We will all gather under one roof for a special show in July/ August at the MAG (Metchosin Art Gallery) for an exhibition entitled "Ten Thousand Hours". We hope to continue to in0handmade, one-of-a-kind artworks that touch the soul.

Watch for our Summer Show at the
METCHOSIN ART GALLERY
July 11 – August 4

Why we call it 'Stinking Fish Studio Tour'

The origin of the name "Metchosin" dates back to the 1800's when a dead whale was cast up on a local beach causing the Native People of the area to refer to it as "SMETS-SHOSIN," meaning "Place of the stinking fish".

From "Footprints" - Metchosin School Museum Society

Wendy Mitchell
580 Witty Beach Road
250-474-4651

Wool from local sheep in their natural colours inspires me to spin, knit, weave and felt objects to wear and use. Processing raw fleece from local sheep is a time consuming and fascinating experience. The natural whites, browns and greys can be enhanced by blending or by dyeing and then spun into the desired thickness. The tools and methods are the same used throughout the ages, giving great pleasure in fulfilling our basic needs for clothing and furnishing the home.
